Demo Sw Dev Process In-class

```
                 Automobile
─────────────────────────────────────────────
-make: String
-nbrPassengerDoors: int
─────────────────────────────────────────────
+Automobile(make:String,nbrPassengerDoors:int)
+Automobile()
+getManufacturer(): String
+getNumberPassengerDoors(): int
```

```
                 PickupTruck
─────────────────────────────────────────────
-bedWidth: double
-bedLength: double
─────────────────────────────────────────────
+PickupTruck(make:String,nbrPassengerDoors:int,
            bedWidth:double,bedLength:double)
+PickupTruck()
+getBedWidth(): double
+getBedLength(): double
```
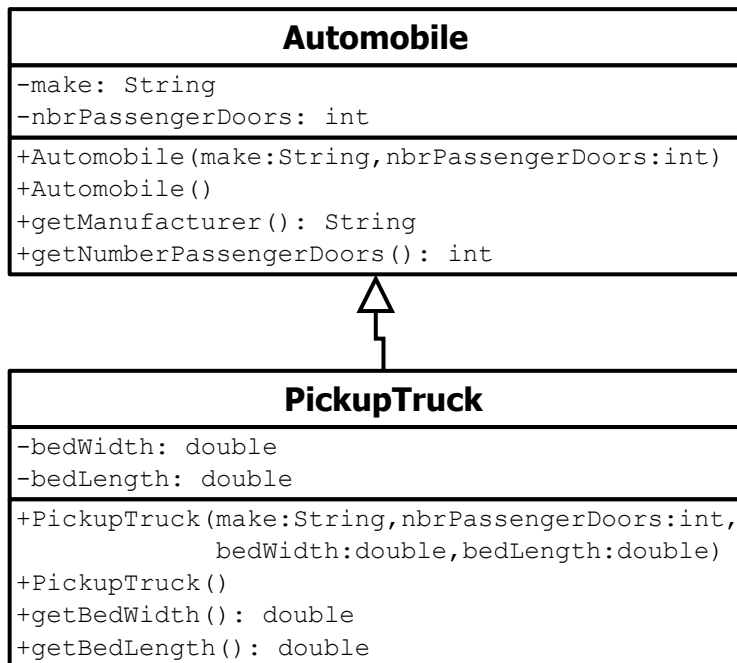

- Automobile
  - Make
    - Non-empty value
  - nbrPassengerDoors
    - 2 or 4
- PickupTruck
  - bedWidth
    - [48, 66] (inches)
  - bedLength
    - 84 or 96 (inches)
